The course is available to everyone, including those with loved ones who are still struggling, who are already in treatment or who are in recovery.

## About

At South Pacific Private, we understand that watching a person you love struggle with addiction or mental health issues can be both painful and confusing.

Our Family Education Program is designed to equip you with the tools and strategies you need to recognize addiction and mental health issues, set clear and effective boundaries and communicate effectively with your loved one.

South Pacific Private is Australia's only treatment center to integrate a dedicated family program within our treatment plans. We recognize that repairing, restoring and healing our most intimate and important relationships is critical for lasting success.
